

An Agility challenge for  
2019 that might get you  
or your dog wet!

Wendy Fassam was our judge for the final heat of the Animal Health Company Classic competition 2019 and with the weather in total cooperation; Paws In the Park ran through to a very late afternoon finish. Throughout the day, the larger event had offered everything dog wise you can think of although I am sure that the jump and splash queue length must have put a few off. No so our Animal Health winners photo call and even the dogs made it as well.

With ten heats now run may we thank all our host events, judges, ring parties and hard working show secretaries who bring it all together and to all those who took part around the country. Congratulations to all our 50 finalists and invitations to the 2019 final will hit the mat later in the autumn.
